REPORT OF THE COMMITTEE ON SLAVERY.

The committee to which was referred the subject of slavery pre-

sent the following report:

It is well known that the M. E. Church has always declared itself as bitterly opposed to the system of slavery, as contrary to natural law, the law of God, and all just human laws, and that it ought to be, as soon as possible, destroyed by the civil power sustaining it. And that the Church should also put forth all proper moral influences in opposition to it, in view of its total extirpation, the legislation of the State to the contrary notwithstanding.

tion of the State to the contrary notwithstanding. Hence the fundamental or constitutional moral code of the M. E. Church declared, from the first, that any purchase, sale, or holding of slaves, with the intention or act to originate or continue a human being in a state of slavery was morally wrong, and expressly pro-The words of her general rule, including the prohibition, hibited. "the buying and selling, (or holding,) men, women and children, with an intention to enslave them." That holding slaves is included in the rule is clear, from the consideration that the buyer must be a holder; and so must the seller be, up to the moment of sale. And the earliest statutory rules of Methodism brought the holding of slaves as much under censure as buying and selling them, when either the intention or act of holding was on the side of slavery and against liberty. Therefore the General Conference of the M. E. Churce is competent at any time to insert in the chapter on slavery the same restrictions respecting holding, as buying or selling slaves. That is, holding, as well as buying, with intent to enslave, is expressly forbidden, but temporary holding is allowed, when this temporary tenure is employed to ensure or promote liberty, but not otherwise.

It would not follow from hence that the Church can or ought to make a rule to exclude all slaveholders from the Church. The term, slaveholders, means the legal master or owner of a slave. The man who buys or owns a slave in order to set him free is as much a slaveholder as he who buys or owns one to continue him a slave for ever. The cruel laws make no allowance for good purposes, good acts, or good morals, for the slave code is no respecter of good morals, and has no penalty for bad morals in the case of slavery, as the system is one of violence and injustice.

There are two law maxims found in the Roman law, and recognized by every other code, that fully sustain this view. The one is, that a law involving an impossibility is void. The other is that a law

requiring a wicked act is void. Many become slaveholders by mere process of law, by inheritance, or will, without their knowledge, will, or act. And such are to all intents and purposes slaveholders, as much as those who go to the baracoons and purchase; the law making no difference. Hence the church-members will be made slaveholders, and thus slaveholders will be forced on the Church in spite of her legislation; and this will always occur where slavery exists. Hence legislation by the Church, excluding all slaveholders; is,

ipso facto, void, because it prohibits what is impossible.

Again, suppose such slaveholders are charged as a crime, that they are slaveholders, and therefore wicked and must be expelled, the expulsion must be solely for the act of others, of which they had no knowledge, will, or act. They are therefore innocent and have committed no sin. It is therefore a wicked act to punish them, and the law requiring it is a wicked law, and therefore void. For no committee of good men would condemn such, and therefore such a law would be void. Nor would it be of any avail to say that no man is a slaveholder against his will any more than that no man can be a slave against his will, for if such a slaveholder refuses to receive the property, the law steps in and sells to the highest bidder, as the property of the disowner, and in his name and place, no matter what protest may be offered. Therefore, Church legislation excluding all slaveholders involves an impossibility, or requires the wicked act of punishing the innocent, and would therefore be void.

All the Church can do is to apply the moral precepts of the gospel to the subject—and to apply them equally to buyers, sellers, and holders of slaves, so as to condemn everything that is in favor of slavery, or against liberty. The way of obtaining slaves makes no difference as to the poor slave for he is a slave whether he is stolen from Africa, born such in America; or is inherited or bought. The slave is stolen property, and is his own owner, in justice, and every slave owner, whether he obtains his injured slave by inheritance, will, purchase, or theft, is bound to restore violated liberty. Just as a man is bound to restore stolen property to its owner, though he may have bought it, or to restore lost property, though he is the

finder of it. So all just laws require.

A paper was put into our hands from a committee of the Wisconsin Conference, asking for a convention of committees, in view of harmonized action, as preparatory to the next general Conference. The former avowed teaching of the Wisconsin Conference, which affirmed that men, women, and children could be sold, bought, and held, without being considered as property, would seem to discourage cooperation; especially as their unstudied and contradictory declaration misled the majority of the last General Conference in voting that men, women, and children could be bought, sold or held, but not as property; whereas the property element is fundamental in the slave code, and, if this be done away, slavery proper exists no more. Besides, the mode proposed would seem to lead to the forming a government within a government.

It is a great cause of gratification that Rev. Joseph Brooks is not bly contending for liberty in a slave state, and there raising up the banner of pure Methodism on the very spot where it was once so vi-

olently torn down and trampled in the mire.

Your Committee believe that every christian man is bound by the morals of the gospel to exercise his civil right as a citizen in the elective franchise, and the holding of civil office, in a lawful way, as well against slavery, as against polygamy, theft, intemperance, or any such moral evil.

*In surveying the subject your committee present the following res-

olutions for the adoption of the Conference:

1. That we adhere to the original and present principles of the M. E. Church on the subject of slavery, as we believe it to be contrary to the law of nature, to the law of God, and to just human law.

2. That the General Conference is competent to make regulations against holding, buying, or selling slaves, when such acts are on the side of slavery, and against freedom.

3. That it is inexpedient to appoint any committee to form a part

of the confederacy proposed by the Wisconsin Conference.

4. That we cordially approve of the editorial course of the Central

Christian Advocate on the subject of slavery.

5. That it is the right and duty of every good citizen to exercise his rights, in a lawful way, against all moral wrong; and as well against slavery as any other.

All of which is respectfully submitted. Signed on behalf of the

Committee

R. S. Robinson, Ch'n.

REPORT ON TEMPERANCE.

Your Committee to whom was referred the subject af Temperance

wish to make the following report:

Whereas the subject of temperance is filled with threefold interest to man, viz. in his physical, mental, and moral well.being. And whereas the cause of in emperance is fearfully and dangerously prevalent in our midst, and whereas we know that none of the above named interests of man can be permanently advanced by or amongst drunkards, or under the influence of intoxicating liquors, and, whereas we have now in most counties of Iowa a wholesome and efficient law regulating the sale of spirituous liquors, doubly approved by the majority of the votes of Iowa, and whereas too many places are found where none are found to stand up for the enforcement of the prohibitory liquor law, therefore resolved:

1st. That we pledge ourselves anew as a body of ministers to use our constant efforts to mildly but firmly urge the enforcement of

the prohibitory liquor law.

2nd. That we will heartily approve of all lawful efforts made by

each church and temperance organization, together with every individual effort, to put down the traffic in intoxicating liquors as a beverage.

3rd. That we rejoice in the fact that in many counties of Iowa

the cause of temperance is most gloriously triumphant.

Signed,

O. C. SHELTON,
H. H. BADLEY,
D. H. PETEFISH,

REPORT OF THE COMMITTEE ON TOBACCO.

Whereas the use of Tobacco prevails to a very great extent in this country, with a cost to the consumers of Twenty Millions of dollars annually, several hundred thousand of which is expended in our own state. Therefore Resolved:

1. That this is a fearful waste of money, which demands the serious attention of every one professing the self-denying religion of

Jesus Christ, especially of christian ministers.

2. That we regard the use of this narcotic, (except as prescribed by a physician,) as a pernicious habit, at war with cleanliness, unbecoming in christians, especially in ministers, injurious to physical, moral, and intellectual life, and leading to kindred vices.

3. That we will do all in our power to discontinue its use, both by

precept and example.

4. That as a Conference we will proceed with due caution in the admission of members to this body who indulge in this practice. Signed on behalf of the Committee.

STRANGE BROOKS, CH'N.

REPORT ON THE BIBLE CAUSE.

The committee on the Bible Cause would submit that they have had the subject under consideration, and are pleased to report the cause in a prosperous condition. Notwithstanding the past year has been one of peculiar financial embarrassment, still the Bible cause has not been forgotten, nor deserted by its friends. We learn from the last annual report of the American Bible Society, that the receipts of the Iowa Conference exceed those of any preceeding year, by nearly two thousand dollars. Thus furnishing one of the most conclusive evidences that the cause of the Bible has a lodgement in the hearts of our people.

We are pleased also to learn that the work of systematic exploration and supply is carried forward with commendable zeal in many parts of our conference, and that some of our auxiliaries have resolved, relying upon God for success, to renew their efforts to in-

troduce the Bible into our common schools.

This movement your committee regard as on omen for good, and as the dawn of better times. Your committee cannot recommend

too strongly to your consideration the importance of aiding our auxiliaries in making the Bible a text book in all our schools, and in this we should have the co-operation of all our sister churches. Yes, brethren, let us place the Bible in every school in the State.

But in this we shall meet with opposition, *Papal Rome*, and modern infidelity of every grade, from the Tom Paine school, down to the spirit rapping and free love abominations of the present day, will all oppose us.

But with the blessing of God we shall overcome all opposition

and place a copy of the Bible in every school in our land.

Your committee would recommend the adoption of the following resolutions:

1st. Resolved, That we have undiminished confidence in the American Bible Society as the great instrumentality for the publication and distribution of the Holy Scriptures.

2nd. Resolved, That we will most cheerfully co-operate with its agent, and with the distributing agents of our auxilliaries in the collection of funds, and that we will aid in every way in the circulation of the scriptures.

3rd. Resolved, That we will preach on the importance of placing the Bible in all our common schools, and urge upon the people to see to it that such men only be employed for teachers as have respect for the Word of God.

Respectfully submitted.

REPORT OF COMMITTEE ON PERIODICALS.

The committee to whom was referred the subject of Periodicals

submit the following as their report:

We are fully of the opinion that the popular mind receives its most prominent traits and characteristics, not so much from standard literary works, as from the numerous Periodicals thrown from the press and scattered broadcast over the entire face of cur country. In confirmation of this opinion we appeal to the experience of every observer, who will doubtless attest the fact that there are probably thousands of families within the limits of our own conferference, families, too of wealth and respectability, of piety and considerable intelligence, who have not a single standard work in their possession; but depend for reading matter almost exclusively upon our Periodicals.

So far then as mental culture, or the acquisition of knowledge by reading is concerned, we feel safe in stating that while some may have access to standard works, the masses have nothing beyond our

common periodicals.

In view of this conceded fact, it becomes the manifest duty of the church to exercise the greatest possible care not only in the selection of proper persons to be placed at the head of our publishing department, but also, so to guard and protect their columns as that no article of an evil tendency shall find its way into them.

And so much the more, because of the confidence which our people place in the teachings of our periodicals. We deem it all important that we take heed how we build upon this foundation. We would further represent that in almost all our Periodicals there is manifested a high regard for moral principle. Upon the great question of national interest at present, the subject of slavery, they lift up their voice like a trumpet. They stand upon the side of truth and righteousness, pleading the cause of the oppressed and inculcating the true principles of civil and religious freedom. And it is the opinion of your committee that more good is being accomplished by our periodical literature by means of enlightening our people and enabling them to assume a right position upon the important questions now before the public mind, than almost any other agency employed by us. We therefore offer for your adoption, the following, to-wit:

1st. Resolved, That we have full confidence in the integrity and uprightness of those to whom the immediate care of our Periodicals

is entrusted.

2nd. Resolved, That the editor of the Central Christian Advocate deserves, and hereby is tendered the warmest thanks of this Conference for the honest, fearless, outspoken independence which has characterized his course since his connection with that paper.

3rd. Resolved, That in him we recognize an able editor, and an

uncompromising enemy of "the sum of all villianies."

4. Resolved, That while we will use proper dilligence to place in each family of our congregations one or more of our periodicals; we will make special effort on behalf of the Central C. Advocate.

SUNDAY SCHOOL REPORT.

Your committee on behalf of the sunday school cause beg leave

to submit the following report:

It appears from carefully prepared statistics, that about one-tenth of the children of our nation, are now in the sabbath schools of our church, It seems evident therefore, that the prosperity of our country, as well as that of our church, depends in a great measure upon the exertion put forth in the cause of sabbath schools. haps was infidelity making more gigantic efforts to overthrow christianity, than now; and we look to the sabbath school as one of the great weapons to be used in its overthrow. In order to accomplish the high destiny of this noble auxiliary of the church, it is of the utmost importance to keep the whole machinery in motion with even We are both surprised and pained to learn accelarated velocity. from a circular of the corresponding secretary of our Union, that we as a Conference, have received in donations, three thousand, four hundred and thirty-three dollars, more than we have contributed to the union the past year. According to this showing we have been greater benificiaries than any other conference. Brethren, these

things ought not to be so. We therefore recommend the following resolutions, not only for present adoption, but furture action:

1st. Resolved. That each preacher be earnestly and affectionately requested to comply with the disciplinary requisition in taking up a collection for the sabbath school union of our church the ensuing year.

2nd. Resolved, That each preacher be requested to preach at least one sermon on the cause of sabbath schools in each charge

this year.

3rd. Resolved, That our brethren are requested to make special

exertions to organize schools in new and destitute places.

4th. Resolved, That the presiding elders are requested to inquire at each quarterly meeting how far the foregoing have been carried out. Signed in behalf of committee.

REPORT OF THE VISITING COMMITTEE.

Report of the Visiting Committee to the Iowa Wesleyan Univer-

sity.

The Visitors were in attendance at part of the annual examinations of the University, at the meetings of the Board of Trustees, the anniversaries, and exhibitions of the literary societies, and the commencement exercises. We endeavored, as far as our limited time would permit, to make ourselves fully acquainted with the condition, prospects, and necessities of the University. We enquired into the progress of the students in their respective studies, and examined into the labors and adaptation of the teachers in their several departments.

We regret that we were able to hear only a limited number of the classes examined. Those that we heard exhibited an acquaintance with their studies highly creditable to themselves, and complimentary to the ability and fidelity of their teachers. The classes we did not hear were reported by those in attendance to have generally passed equally good examinations. Some of them were represented as being very superior, while all showed a gratifying proficiency in their studies. It seemed to be the general verdict that in no previous year had more complete success been attained both in imparting

and receiving instruction.

The meetings and proceedings of the Board of Trustees were of much interest. Every department of the University was carefully inquired into and provided for. On consultation it was deemed advisable to establish and fill a chair of German language and literature. Rev. Adam Miller, M. D., was chosen to fill the chair. It was also determined to elect a Professor for the Law department, and H. Ambler, Esq., was chosen law professor. Dr. Elliott, having served faithfully and with great acceptability as President protem during most of the past year, was unanimously elected President of the University.

The Board of Trustees also investigated carefully the accounts and proceedings of the Agents. By their request the visitors spent much of their time in looking over the accounts of the Agents, and in examining the books of the University. Owing to the fact that until lately no regular book had been opened in which to keep the accounts of the Institution several discrepancies were found in the receipts and disbursements, of its funds and some irregularities in the manner in which these funds have been kept. These were ordered to be corrected, and as a competent book-keeper has been employed to open and keep regular books, it is earnestly desired and confidently hoped that hereafter the accounts of the Institution will be kept in a regular and intelligible manner.

The exercises of commencement week were deeply interesting. The addresses derivered to the Literary Societies and to the Alumni were received with marked favor. The anniversaries of the Ruthia onean, and Hamline Societies called out large and appreciative audiences. The young Ladies were especially felicitous in their exhibition. Their pieces were full of elevated, sparkling thoughts, and pure Christian sentiments. These, clothed in neat, elegant language, and spoken in a cheerful tone of voice, charmed, delighted, and enchained to a late hour, the vast audience. All united in bestowing

high encomiums upon their productions.

The exhibition of the young gentlemen hardly equalled in interest that of the young ladies. Their pieces mostly contained strong vigorous thought, arranged with logical precision, but they did not give evidence of that severe preparation which prunes every superfluous thought, carefully corrects the style, and studiously brings the production within that limit so indispensible to the highest excellence and secuess. Some of the pieces were poorly memorized and carelessly delivered; faults inexcusable in a student, and which

greatly mar the beauty and effect of an exhibition.

The exercises of commencement day formed the crowning attraction of this interesting occasion. Four young gentlemen having completed the classical and one the scientific course, delivered their graduating speeches, and received the honors of their Alma Mater. All of the addresses were good; some of them very superior, giving evidence of that preparation which leaves nothing undone that can ensure success. All seemed pleased. Patrons, trustees, visitors, and instructors were delighted. It was not only a delicious "feast of; reason," but there was full "flow of soul" which for the time bore all hearts forward on an impulsive tide of joy. As we listened to the noble sentiments and moving, touching words of these young men, we all felt, and some said; "Let the Iowa Wesleyan University live forever!" And all united in the wish that the luscious early fruits might be only the harbingers of that rich annual vintage to be gathered from this Institution.

The Baccalaureate of Dr. Elliott, was just what would have been expected from its talented and venerable author. Earnestly did he protest against the divorce of moral and religous intellectual

training; faithfully did he utter his warning against the Christless, soulless system of cultivating, developing, and strengthening the mind, and leaving the heart an uncultivated desert; and powerfully did he plead for the Bible in our schools, and for Christianity and religion to be mingled with all the instruction of the young.

The confering of the degrees, and a few parting words addressed to the class with much feeling, closed this occasion of thrilling in-

terest.

The attendance of students during the past year has been truly gratifying. Such was the stringency of the times that apprehensions were entertained that the number of students would fall below that of last year. The annual catalogue seems, at first sight, to show such a decrease; but this can be accounted for by the fact that the primary department was abolished at the close of the first term. In the other departments there has been an aggregate in-

crease of thirty-three per cent. over the number of last year.

It is believed that the government of the Institution was never more efficient, the labors of the instructors never more successful, and the prospects of the University never more flattering than at the present time. We congratulate the Conference on its continued success, and bespeak for it your renewed interest, sympathy, prayers, and effort. The University depends almost entirely on you for its success; and it is for you to say whether the sun of its prosperity shall rise higher and throw a broader and higher radiance all over our fair heritage, or whether it shall decline, and shroud itself amid clouds and tempests.

Your Committee are frank to onfess their fears that all the members of the Conference are not as deeply interested as they should be in the enterprise; and they are satisfied that our members generally need to be more thoroughly aroused to a sense of its vast im-

portance.

God has committed to our care much of the rising youth of this land. Their eyes are directed to us to furnish provisions for their intellectual culture, as wen as their religious wants. A vast territory from which we as a church may draw large and valuable acquisitions lies ready for occupancy. A wide field of usefulness, waving in inviting beauty, bids an entrance. God, and our position, call upon us to improve these providential openings. Should we, through apathy or indolence, fail to meet these pressing demands, it would disappoint the expectations of our children, rudely repulse them from our bosom, and drive from our communion to that of others, all the noble, aspiring natures who are seeking the qualifications imparted by education for enlarged usefulness.

"Knowledge is power," and while false systems are striving to obtain ascendency in literary circles, this is no time for the friends of the Bible and of true Christianity to yield this powerful weapon of defense and aggression to the enemy. It is true our institutions employ some of our most valued men. But what field pays better? The professors in our University can report as great a proportion of

converts, and as valuable accessions to the Church as our pasters from the regular work. And even our Agents, estranged as they may be considered from the regular work, may in the great day of eternity have crowns gemmed with richer jewels than many of us who boast of having but one work. It is, however, all one work.—Our literary Institutions are essential parts of that grand machinery

by which the Church is to move the world.

In this vast field of effort we have the richest encouragement. The success of our University has been all that its most sanguine friends could have expected. Compared with other Institutions of similar grade it is unsurpassed in its rapid advancement; in all that constitutes a true University. Ample educational provisions are made for the future. Our University is gradually rising in her glory, strength, and beauty, and, if we do our duty, will tower up in beautiful symmetry and lofty proportions, a lasting monument of our denominational energy.

But while such success has attended its efforts to afford educational facilities it has, in common with other Institutions, at times suftered from financial embarrassment. A correct exhibit of the finances of the University will be presented to the Conference. It will be seen that there is a large indebtedness to be met. Let every brother be ready with his counsel and assistance, and we shall successfully weather this difficult cape, and spread sail again in a

smooth and delightful sea.

Remember, brethren, that this is our University. Our's in a sense in which no other in our connection can be said to belong to a Conference. This Conference is its board of Corporators. We hold its property. We elect its Trustees, and hold them responsible to us for all their acts. We select its agents. We settle and arrange its economy. The entire control of the University is in our hands and if there have been in the past any errors in its financial management the blame must fall on us. If in the future there should be mistakes, we must bear the censure, and should the University in any sense decline, ours will be the mortification of the failure. Its destinies are placed in our hands, and the honor of the Conference is

staked upon the issue.

In view of these facts, we ask of you as the Corporators and Directors of the University, for the love you bear to educating the rising youth, and to the cause of God, to deliberate carefully, prayerfully and wisely for its interests. To falter now in our devotion or effort would be a base recreancy to our trusts, a burning shame to our denominational energy, a dark blot on our literary and christian enterprize. To surrender our present high position, our acquired vantage ground over our sister churches, would cover us with confusion, bring upon us the frown of God, and the censure of the whole enlightened community. Rally then, brethren, around our noble University. Let us labor united for its success, and the star of its destiny shall still be in the ascendant, and shine amid the galaxy of similar Institutions, with the brightness of an unclouded glory

Respectfully submitted. A. C. M'Donald, Ch'n.

REPORT OF THE COMMITTEE ON THE RESOLU-TIONS OF GENERAL MISSIONARY COMMITTEE.

Your committee to whom was referred the Resolutions of the Joint Mission Committee at New York, have had the same under consideration and submit, for your adoption the follow-

lowing preamble and resolution:

Whereas, in the judgement of this conference there is a vast extent of territory that is properly missionary ground, and that the agency of our domestic mission is indispensable in the extension and establishment, of methodism in manp of our young and growing towns, and in the sparcely settled parts of our country.

Therefore Resolved, That we most respectfully request the mission committee to continue their appropriations to this de-

partment of our work.

Respectfully submitted. J. H. Power, Ch'n.

REPORT OF COMMITTEE ON THE STATE OF THE CHURCH.

The committee on the state of the Church, and administration of Discipline would report that they have had a variety of subjects under consideration, and fear that for want of time we have not been able to give to each one that attention which their importance deserves. We however recommend the follow-

ing

lst. Whereas, we learn with regret, that there is great delinquency on the part of our people in attending upon class meetings the utility of which we will not stop now to argue; but satisfied we are, that the present is not the time for relaxing the zeal to sustain this ancient peculiarity of Methodism We are led to fear however that much of this delinquency is chargeable upon us as ministers. First in neglecting to meet the class ourselves, and secondly in not furnishing good and efficient leders.

Therefore Resolved, That each Presiding Elder be requested to enquire at each quarterly meeting conference, whether our discipinary rules on the subject of class meetings have been carried out by the preachers and people, and report on the same at the annual Conference in the examination of ministe-

rial character.

2nd. Whereas we have reason to believe that the subject of receiving members into full connection in the church is in many instances greatly neglected, and in some almost totally; and, whereas, this tends greatly to disorganization by the

neglect of the ordinances of baptism and not publicly imposing upon the members the obligations of the christian life, the distinctions between the Church and the world are greatly di-

mished and the moral power of the former lost.

Therefore Resolved, That we remind all our Preachers having pastoral charge, of the importance of increased punctuality in attending to the ordinance of baptism both of adults and of children, and the reception of all qualified probationers into full fellowship in the church, requiring them to take upon themselves the obligations of the church according to the discipline.

3rd. Your Committee has had under consideration the subject of finances, and believe that the great desideratum is some well digested plan which shall secure the systematic and general co-operation of our people. We accordingly, herewith submit a financial system with the following recommendation.

Resolved, That this financial system be adopted by this Conference.

4th. Whereas, there has been great neglect in obtaining lots and grounds for church purposes, and a still greater one in securing good and valid titles to property already in possession.

Therefore, Resolved, That the form herewith submitted for the legal incorporation of Trustees, be referred to the Law Department of the Iowa Wesleyan University with a request that a proper form be prepared for publication in the conference minutes.

5th. Whereas in some societies of our work there is a growing opinion that the Presiding Eldership is an unnecessary

office in the machinery of Methodism.

Therefore Resolved, That we deeply regret the existence of such sentiments in the minds of any of the members of our church, and we do hereby earnestly recommend that our preachers and people adhere in this matter to the Discipline as it is, and oppose in every prudent way the aforesaid innovation.

6th. Whereas, it is apparent that our lovefeast meetings are

not what they should be in spirituality and usefulness,.

Therefore Resolved, That we will whenever and wherever it it is at all practicable, adhere to the rule as set forth in the dis-

cipline and practiced by our fathers.

7th. Resolved, That it is expedient and necessary for the promotion and preservation of harmony and uniformity in Divine services, that we affectionately request all our preachers in conducting regular church services to follow the practice of our Bishop; lining the first hymn sung, to be followed by prayer

and reading the scripture lesson. But the second hymn be sung without lining; and the concluding hymn can be lined or not, according to the wish of the Preacher.

REPORT OF THE COMMITTEE ON MISSIONS.

REPORT OF THE COMMITTEE ON EDUCATION NO 1

The Committee on Education to whom was referred the "Communication from the Board of Managers of the Ministerial Education Society of the Methodist Episcopal Church;" would report that, however desirable it may be to provide, by donation or loan, means to educate for the ministry in the M. E. Church, suitable young men who are financially unable to secure for themselves an education, they deem it inexpedient at the present time to recommend the organization of an auxiliary Society or to take any action in reference to the matter.

REPORT OF COMMITTEE ON TRACT CAUSE.

Your Committee to whom was referred the interests of the Tract Cause, beg leave to present the following report:

It is obvious to all that this is emphatically a reading age

Trashy literature seems to be eagerly sought and devoured by the multitude. Its tendencies are ruinous. The press is an engine for good or for evil, and, perhaps, at no period of the world's history has the press of infidelity made more vigorous and persevering effort to sow the seeds of sin and death; hence the necessity of the employment of the religious press, the printed page, the diligent hand and willing heart of those who "follow the Lamb whithersoever he goeth." Therefore

Resolved, 1st. That in view of the rapidly increasing population of our country, the character of the literature in general circulation, and the thousands that cannot be reached with the Gospel by the regular ministry we are more than ever convinced of the importance of our Tract Society as a means of reaching themasses through the free distribution of our religious publications.

2nd. That the Presiding Elders have the oversight of the

Tract interests in their respective districts.

3rd. That as preachers we will lay the claims of our own society before all our congregations and take up a collection in behalf thereof, one half of which shall be returned to the charge in Tracts or "Good News," for general circulation.

4th. That we will recommend to, and endeavor to enlist our

people in the circulation of our tract publications.

Respectfully submitted.

D. N. SMITH. R. B. ALLENDER,

REPORT OF THE COMMITTEE ON EDUCATION NO. 2.

The Committee on Education to whom was referred the articles of incorporation of the Columbus Seminary would present

the following report:

From the representations made to the Committee by bros. Guylee, Petefish, and J. Brooks, it appears that a good building, three stories high, suitable for seminary purposes, in Mills Co., Iowa, is in process of erection, and will be completed and ready for occupancy, on or about January 1st, 1859.—Said building will be worth about \$25,000, and will be almost entirely free from debt, a balance of some \$1,500, or less, being unpaid. The prospect for students is said to be excellent.

In the Articles of incorporation of said Seminary, the following declarations are to be found: The Seminary is called, "The Columbus Seminary of the Iowa Annual Conference of

the M. E. Church."

ART. I. The Trustees "can make all by-laws, rules, or regulations for its government, subject to the approval of the Iowa Annual Conference. It shall be under the exclusive control of the Iowa Annual Conference of the M. E. Church.

ART. IV. They are to report annually a "full statement of

their acts and doings," to the Iowa Annual Conference.

ART. IX. The Conference will appoint a visiting committee.

ART. XII. The articles of incorporation cannot be altered

without the "consent of the Iowa Annual Conference."

From the foregoing it appears that the Seminary is completely under the control of the Iowa Annual Conference of the M. E. Church that all its regulations are to be approved by said Conference, and that it claims no higher grade than that of a Seminary. Such being the representations, your Committee would offer for adoption the following resolutions.

Resolved, That this Conference accept "Columbus Seminary under the articles of Incorporation herewith presented, and extend to it our patronage; provided, 1st, that the Conference under no circumstances shall ever be made responsible for any pecuniary liabilities the Seminary has incurred or may hereafter incur, Provided, 2nd, that no attempt be made to elevate it into a College or University, or to create endowment funds beyond the wants of a Seminary, and provided further, that in seeking donations for the Seminary, the Trusteesshall be confined to the territory in the Council Bluffs District. in which the Seminary is located.

Resolved, That the following persons be appointed Trustees: For one year: Rev. Isaac Burns, Rev. D. H. Petefish, and Rev Benj. Rector.

For two years: Rev. Joseph Brooks, Loudon Mullin, Esq.,

and Rev. J. M. Rust.

For three years: Rev. J. Guylee, Hon. T. H. Benton, jr. and

Rev. Wm. Armstrong.

Resolved, That C. Nuckolls, Esq. Hon. ——Sears, C. Stone Esq. C. N. Andrews, Esq., and C. Pitzer be appointed visitors for the current year.

Resolved, That the Articles of incorporation, or an authenticated copy of them, be filed with the papers of this Confer-

ence.

IOWA WESLEYAN UNIVERSITY.

In reference to the Iowa Wesleyan University. your Committee would report that it still maintains its advanced position in regard to the education of the youths who are within its walls, and that it is steadily increasing its usefulness and pow-

er in the community and the Conference. During the last year an excellent religious influence has prevailed in the University. About sixty of the students or more experienced religion during the year in both of the pastoral charges. A very respectable number of the students were religious previous to their entering the Institution, and the good effects of their example and influence upon the other pupils were manifest not only in preserving excellent order, but also in securing close attention to their studies.

The progress of the College department is, under the circumstances, without a parallel in the history of Methodist Colleges. Two years ago it graduated one. It has since graduated two classes of five in number. At the time of the first graduation, the faculty had but little, if any, prospect of a Freshman class, and were apprehensive that in the year 1860 they would be without a Senior class, but now the class for the commencement of 1860, the present junior class, numbers eight, and is as fine a class as can be found in any College.—There are at this time 50 students in the regular collegiate department, 20 of whom are in the present freshmen class.

The present year has opened with better prospects than ever Notwithstanding the hard times, 140 students have already been enrolled, and when their age, talents, and piety are taken into account, we can but indulge the hope that the present year will be the most successful with which our University has yet

been favored.

The most perfect harmony and good feeling prevail among the faculty, each member manifesting a deep interest in the Institution, and doing all he can for its promotion. They are a unit in regard to the interests of the University. With them all selfish desires are sacrificed for its advancement, and they spare no pains in laboring to make the Institution equal to any in the west.

While our noble University is doing an excellent work for the cause of sanctified education in our state, it is still somewhat embarrassed in that the endowment funds are not all secured, and that much of that which has been already secured is not available. It therefore, devolves upon all Methodists, and the friends of the Mehodist E. Church, at this time, to aid in meeting the current expenses of the Institution.

Your Committee therefore, offer the following for adoption:

Be it resolved by the members of the Iowa Annual Conference, that we will use our utmost endeavors to raise the sum of four thousand dollars to defray the current expenses of the lowa Wesleyan University.

Resolved further that we request the Mt. Pleasant District to become responsible for the salary of Dr. Elliott.

That Keokuk District become responsible for the salary of

Prof. Gray.

That Burlington District become responsible for the salary of Prof. Spaulding.

That Muscatine District become responsible for the salary of

Mrs. Prof. M. J. A. Kelly.

That Oskaloosa District become responsible for the salary of Prof. Beattie,

That Albia and Des Moines Districts be requested to raise for publication of Catalogues, purchasing fuel, &c. \$500 00.

That Chariton and Council Bluffs District, be requested to

raise for other contingent expenses \$300 00.

Your Committee would also recommend the adoption of the

following:

Resolved that Rev. S. Haines, Rev. A. C. M'Donald, Rev. John Harris, Rev. Isaac A. Braderick, Rev. Thomas Audas, Rev. E. L. Briggs, Rev. A. Bussey, Rev. L. T. Rowley, and

Rev. E. W. Twining be appointed visitors to the Iowa Wesleyan University for the present year.

Resolved, That the Bishop be requested to appoint Rev. John Darrah, agent for the Iowa Wesleyan University for the ensuing year.

S. Haines, Cu'n.

GEO. B. JOCELYN, SEC.

ON THE DEATH OF REV. L. W. BERRY, D. D.

Seldom, if ever before in the history of the Iowa Conference, have we been called upon to commemorate and record an event so sad and afflicting, as that experienced during the past year, in the death of our beloved friend and Brother, L. W. Berry, D. D.

It is true that Dr. Berry was not at the time of his death a member of this Conference, having been transfered last May to the Missouri Conference. Yet from his former prominent position and arduous labors among us, and in view of his character as one of the most extensively known, and universally beloved of all our Ministers in the Western States, we feel called upon to give an expression of our heartfelt sorrow at this great bereavement.

At our last annual session, Dr. Berry was among us, mingling in our society, uniting in our councils, and joining in our devotions. His health was firm, his constitution iron-like, and, rejoicing in his strength, he gave promise of useful labor for

many years to come.

A few days after the adjournment of our Conference a negotiation for the establishment of a Methodist University, at Jefferson City, Mo., was completed. The friends of this enterprise, justly estimating the critical character and magnitude of the work of establishing such an institution, cast about them for a man to lead the enterprise whose very name should constitute a tower of strength and give to friends and foes a guarantee of final success. All, as with one accord, fixed at once upon Dr.

Berry.

f

At the first meeting of the Board of Trustees, embracing a number of the most eminent men of Missouri, Dr. Berry was unanimously elected President of the University. To accept such a position and its surroundings, was, perhaps, the greatest trial of his life. It was to break away from a position, and a circle of friends in connection with which he had fondly expected to end his days. It was to cut loose from a body of men for whose official character he entertained the highest respect, and for many of whom personally he manifested a friendsh.p and affection of the most ardent character. More than this, it was to plunge into a scene of conflict where an amount of opposition and suffering was unparallelled in the modern history of Methodism and of our holy christianity. Nevertheless, with this struggle in all its phases, embracing the bitterest persecution from bigoted partizans, enemies of freedom and of God, at the call of DUTY he broke away, and with the self-sacrifice and devotion which mark the missionary of the Cross, he accepted the position.

It is due to say that this step was not taken until after extensive consultation with our bishops, and other prominent ministers of our Church. Thus endorsed and sustained, the posi-

tion was accepted by our departed brother.

Touching the history of the disease by which that athletic man went down to the grave, it is only proper here to say that it was, perhaps, produced by over mental exertion and expo-

sure in the Inauguration of the University.

After lingering for months under deep affliction, during which time he continued to work by correspondence and otherwise for the promotion of the interests of the University, he peacefully fell asleep in Jesus on the 24th of July, 1858, in the city of Cincinnati.

The following resolutions are hereby offered for the adoption

of the Conference:

Resolved, 1st. That in the death of Rev. Lucien W. Berry, D. D., the M. E. Church has parted with one of her strongest pillars, and one of her brightest ornaments.

2nd. That we contemplate with regret the loss sustained by our Church in Mo., and the University at Jefferson City in particular.

3rd. That we extend to Mrs. Berry, our christian sympathy, and pledge to her and her fatherless children our earnest prayers for their prosperity in this world, and their final salvation in heaven.

4th. That we instruct the secretary of this Conference to furnish a copy of this preamble and resolutions to sister Berry, and to our church papers for publication.

JOSEPH BROOKS.

REPORT OF THE SECRETARY OF IOWA CONFERENCE MISSIONARY SOCIETY.

The annual meeting of the Iowa Conference Missionary Society was held in the Methodist Episcopal church, Fairfield, on Friday evening, September 10, 1858, Rev. S. Haines, President, in the chair.

The opening services were conducted by Rev. R. S. Robinson. after which the Treasurer, Rev. E, M. H. Fleming, presented his annual report.

The following persons were nominated and elected officers of

the society for the ensuing year:

PRESIDENT—Rev. Amos Bussey; VICE PRESIDENT—Rev. B. Holland; SECRETARY—Rev. Emund H. Waring; TREASURER—Rev. Isaiah A. Bradrick;

Manergers—Revs. J. H. M'Cutchen, Anthony Robinson, A. C. Barnhart, G. H. Clark, D. T. Sween and A. Badley.

Interesting and affecting addresses were delivered by Rev. C. Elliott, D. D., Rev. F. W. Evans, Rev. T. E. Corkhill and Rev. G.

B. Jocelyn, after which the annual collection was taken up.

Resolutions were adopted pledging the sympathy and support of the society to the missions in France, asking the missionary Board to place France again on the list of our missions, and directing that the missionary collections be taken up in all our charges this year, sometime in the month of January.

The meeting then adjourned.

E. L. Briggs, Sec.

SECOND ANNUAL REPORT OF THE SECRETARY OF THE IOWA WESLEYAN UNIVERSITY.

RENDERED TO THE CORPORATORS SEPTEMBER, 8, 1858.

Dear Brethren,—In compliance with the requirements of your by-laws, which make it the duty of your Secretary to report to you annually the condition of the institution of which you are the corporators, I ask to be permitted to lay before you the following as my report, embracing a brief review of the doings of the Board of Trustees, together with the condition of the institution, both financial and otherwise, for the conference year of 1857-8:

At the time of making my last report, Rev. L. W. Berry, D. D., was President of the institution. For more than two years, with great wisdom, and skill, and prudence, he labored for the advancement of all its interests; but feeling called upon to identify himself with an educational enterprise in the State of Missouri, he accordingly tendered his resignation to

the Board of Trustees, convened November 25, 1857.

The vacancy thus created was filled by the election of Rev. Charles Elliott, D. D. L. L. D., President pro tem. Rev. J. M Leavitt was, on the 26th of November, 1857, duly elected President of the Iowa Wesleyan University, and, at the same meeting, Rev. G. C. Whitlock, A. M., was elected to the chair of Natural Philosophy and Chemistry, made vacant by the death of our beloved friend and brother, C. G. Downey, A. M., which I reported to you at your last meeting. Prof. Whitlock, now in Victoria University, Canada, accepts the chair to which he has been elected, and will be ready to take his place among us in May next.

The annual meeting of the Board was convened June 18, 1858, at which time the declinature of Rev. J. M. Leavitt, president elect, was presented and read; whereupon the Board resolved upon filling the vacancy, and upon the first ballot, Rev. Charles Elliott, D. D. L. L. D., was declared unanimously elected President of the Iowa Wesleyan University. Thus far God has directed us in the choice of presidents, and those who have presided over our institutions have shown themselves not only competent and fully qualified for their high and responsible position, but, also, to be men of large

and generous soul, capable of grasping the loftiest ideas connected with the interests of sanctified learning, and wielding them with telling effect upon the destiny of the Iowa Wesleyan University. And now that your board of instruction is full, may God grant that no vacancy may soon occur again.

At their last meeting the Board of Trustees passed a resolution, asking the corporators to order the issuing and sale of perpetual transferable scholarships, to be sold at two hundred dollars each; also, the issuing and sale of a limited transferable scholarship, a form for which will be found accompanying this report. They also ordered that your attorney, Hon. E. Kilpatrick, execute a mortgage upon the college and college property, amounting to nine thousand dollars, in favor of the endowment fund, to secure funds collected from said fund, and applied to the payment of the debts of the University. They also repudiated the mortgage which the Executive committee ordered to be given to A. Lee, Esq. They also ask that Rev. John Darrah be continued in his relation as agent of the institution.

THE LAW DEPARTMENT, to which I called your attention in my last report, has been organized and placed under the control of Hon. James Harlan and Henry Ambler, Esq., men in every respect competent to impart thorough instruction in the various departments of the profession of law,

IN THE DEPARTMENT OF MODERN LANGUAGES, Rev. Adam Miller, M. D., was elected to the chair of German Language

and Literature.

I am glad to be able, in this report, to state that great unanimity and harmony prevails throughout the entire institution, No pains have been spared, by either President or professors, in making it all that could be desired. And, further, I would state that the instructions given, are thorough and of the very highest moral character. While sectarian peculiarities are carefully avoided, great efforts are made to impress the mind of every student with the highest sense of his obligations to God. Religion, or, in other words, the fear of God, is made the great desideratum, and enters largely into all the arrangements and instructions of the institution, and is strongly inculcated by both precept and example.

THE THEOLOGICAL DEPARTMENT, although in its infancy, is open for the accommodation of all who may wish to avail themselves of a thorough course. It is intended to make this department second to none of the kind in the west, and fully adequate to the wants of the present age. The manifest duty of the Church in Iowa is, to provide, upon our own soil, and

within our own institutions, for the thorough education and training of our own ministers. In pursuance of this great object, I am glad to be able to report to you the existance of this department in our institution. It is very properly placed under the wise control of the President, Rev. Chas. Elliotta man of large experience, sound judgment, deep piety, and indomitable perseverance—who has given his entire life to the Church and to the cause of his Master; and it is the opinion of your Secretary, that a more competent person could not be found to take charge of this department. I, therefore, would urge the brethren of this conference to direct the attention of the young men of our state, who purpose entering the ministry, to this department of the Iowa Wesleyan University. I would also report that the other departments-Literary, Scientific, Preparatory, etc.—are all in a prosperous condition.

Permit me now to lay before you a brief statement of the Onancial condition of the University, stating that the items, as set forth in the following exhibit, have been carefully collected from the records of the institution, and, as I believe, are not And it should be remembered that all that is exagerated. here shown, except the campus, is the result of less than four years labor, a fact which should inspire in us a determination to persevere till our institution be placed upon an immovable

basis.

Although, as will be seen from the foregoing exhibit, our institution is by no means free from debt; yet a small effort upon the part of our people, will cancel all its liabilities and place

it upon a safe and firm basis.

It was very truthfully stated by our venerable president, while editor of the Western Christian Advocate, that "the Iowa Annual Cenference alone is more capable of endowing an institution of learning, than was the entire church thirty years ago"

Yet our ability will be a curse rather than a blessing unless

we bring it to bear upon the object of our desire.

We are to-day resting under the most solemn pledges, and obligations, to the people of Iowa and to the world, to estab-

lish and perpetuate this institution.

We have asked aid at the hands of the friends of education among us, and they have to a considerable extent, responded to that call. We have sent out our publications, and notices, over the entire continent, so that every family in which was found even a Methodist almanac, was also found a picture of the Iowa Wesleyan University.

Thus we find ourselves pledged to the citizens of our own state, to the world, to the church, to our God, to sustain this

institution.

The M. E. Church seems to be divinely called to assume a leading position in the educational movements of the day.

To confer then with flesh and blood is exceedingly dangerous. To hesitate, is destructive of our highest and best interests. To cling to our gold will bring with crushing weight the curse of God upon us. We have taken our stand and hurled our colors to the breeze, therefore necessity is laid upon us, and we cannot do otherwise than go forward, if we would stand justified before our fellow men. But shall we despair of success, after having struggled through difficulties and embarassments to the present high and commanding position. Shall we give up?

Methinks in such a case, the souls of our sainted brethren, who have died at their posts, amid the toils and difficulties, and privations of other years, would, if permitted, gladly start from their rest before the throne, grasp again the armour, and count it their highest joy to consumate this work so nobly begun.

For some wise purpose God has turned the world's eye upon America. The valley of the Mississippi is its central and most inviting portion. The savage has disappeared from our plains, and civilized men stand in their place. The wigwam has given place to the palace, and the trail of the Indian is lost in the excavations of the railway. The smoke of the camp-fire may yet hang upon the peaks of the Rocky Mountains, but the sun of religious prosperity shines in the vallies beneath.

The scream of the steam whistle among us is a true signa of the arrival of the masses that press upon our shores. years they have been crowding upon us. The vicissitudes or fortune or changes in the circumstances of our country oppose no insuperable difficulty in their way. They come from Asia, from Africa, from Europe and from the Islands of the sea, to live and die in our midst. They bring with them their old dogmas, and idolatrous and superstitious notions. in the providence of God to learn civilization and christianity among us. Will we, then, in the spirit of our Master, bid them welcome to our shores, will we open to them our schools Will we, by a well regulated system of and our churches. mental and moral training; divest them of their perverted notions of liberty and religion, and make of them honorable citizens of this great republic. If we will, we are safe. will not, then the rationalism of the German, the infidelity of the French, the superstitions of the Italian and Spaniard, together with a host of principles positively idolatrous; like so many dark portentous clouds of night will spread over our bright horizon, while insurrection, civil strife and bloodshed write upon every page of our history:

"The glory is departed."

Brethren, members of the Iowa Annual Conference, it is ours under God, when the enemy comes in like a flood upon us to lift up a standard against him. Those minds trained in the I. W. University, will render us efficient service in future years. Will we rally around this institution? Will we cancel its liabilities and protect its interest until having accomplished our task, we shall rest from our labor and our work will follow us.

Respectfully submitted;

THOS. E. CORKHILL; Sec'y.
